Dev Log 01 -Marcio Paulo

1. WHAT I ACCOMPLISHED

- +/– Sat with the team and set two meeting times and dates for meetings.
- +/– Set up and designed data structures with Saif
- +/– Decide with the team on which design to use for the UI and overall app
- +/– Came up with a UML Diagram for the data structures

2. WHAT I PLAN TO ACCOMPLISH BY NEXT TIME

- +/– Implement Data structures and the comparison function
- +/– Implement Capturing and saving photos with our tag system.

3. WHAT QUESTIONS/DIFFICULTIES AM I HAVING

- +/– Figuring out some backend systems such as AWS to handle the networking aspects.
- +/– Learning Android Studio

4. WHAT PROBLEMS DID I RESOLVE

- +/– Figuring out the data structures of our app
- +/– Clarify how functions would interact and how the architecture of the app should be set up.
