Dev Log 01 - Ibrahim Helmy

1. WHAT I ACCOMPLISHED

+/- Sat with the team and set two meeting times and dates for meetings.

+/- Conducted field research asked questions to viable users to create a final cemented list of features

+/- Designed and created the logo for the app

2. WHAT I PLAN TO ACCOMPLISH BY NEXT TIME

+/- Create a UML diagram of all the classes and outline the structure of the app

+/- Divide the work amongst the team members to get started.

3. WHAT QUESTIONS/DIFFICULTIES AM I HAVING

+/- How should the filter process work for each of the clothing items?

+/- What backend data structure will we use for the storing of the data that user provides based on our functional/non-functional requirements

4. WHAT PROBLEMS DID I RESOLVE

+/- We discussed how we will arrange the items within the data structure and how the different features will work together within the app

+/- Created a DevLog template for team usage in the future.
